CMSI 402 Project Status Sheet
Fall 2018

Name: <u>Megan Karbowski</u>   **Date**: 3<u>/19</u>
Project: <u>Ancur</u>   **Period Covered**: <u>week 2/19 - 3/19</u>

Accomplishments since last report:
• Implemented feature to prove receipts
• Added formatting changes to the UI with Bootstrap and css
• Experimented using Material instead of Bootstrap
• Broke code up into components (receipt component, stamp component, etc.)
• Determine database will not be used for user accounts.

Scheduled tasks to be done by next report:
• De-bug server issues - API request results not being sent to front-end correctly
• Continue working on UX/UI of application.
• Clean up display of stamps/receipts.
• Implement feature to return stamped document's receipts to the user

Noteworthy risks, concerns, or problems:
• Without a database - user's may not trust the site as much
• Stampery API documentation changes during development
